WORK EXPERIENCE

Systems Engineer
Infosys Ltd, Mysore
2019–Present
Successfully completed the generic stream where I had learnt python, data structures and mysql DB. Later I skilled myself in java, spring boot and angular 6 (CSS3, HTML5 and typescript) and worked on sql/non-sql databases such as mysql and mongoDB.
In the training program, I had worked on a development project which required the above knowledge to upgrade a wallet web application. Worked on core Java, Jpql for interacting with the persistence layer which was built on oracle database. Developed service layer using spring boot framework. The front-end was based on Angular framework.
After completing my training, I have worked on a few accelerate projects which involved through knowledge of HTML and CSS. Currently, I am on bench.
